

COMMUNITY LIBRARY

Next year there will be no more Mobile Library – the Council have said they will support 10 Community Libraries. We are looking at how this might happen in Hawkesbury Upton. Many people in the village currently use the Mobile Library - would you use a Community Library?

There will be space for regularly changed books, however details are still being worked on, but only if there is enough demand for the service – let us know if you would use this library service and all it might offer. If you are interested in either using or helping and want to see a Library service in the village - please get in touch
